Parameter Information	
Model Name	Exhaust Fan
Operating Voltage	115 V
Airflow Range	300 CFM
Vent Size	6 in
Overload Protection	3 A
Weight	18.5 lbs
Item Dim	13.5 × 13.11 × 9.25 in
Sound Pressure	70 dB
Power	105W

PRODUCT APPLICATION

× This AlorAir exhaust fan, which is known for its powerful exhaust capacity and ultra-quiet (70 dB) operating characteristics, rotates at 1390 RPM, ensuring that you can enjoy a comfortable environment without interference. This unit uses centrifugal blower, which has the characteristics of low noise, low energy consumption and requires no maintenance. Also the unit is installed away from the living space, you might not even know they're on. Whether it is to remove moisture from the bathroom, smoke from the kitchen, or improve the air quality in the garage, this exhaust fan can easily do the job. Its black exterior is simple and generous, suitable for various home decoration styles. Choose this 300 CFM ultra-silent bathroom exhaust fan, weighing 18.5 lbs and measuring 13.5 × 13.11 × 9.25 in. It won't take up a lot of space and will bring fresher, healthier air to your living space.
